

Anti-bacterial printing

Measures against infection risk!

Antibacterial seal for Smartphone Cover

Antibacterial print by

KENIFINE™

KENIFINE is registered trademark of KOBE STEEL Ltd. TAKASHU KAGAKU Co., Ltd. obtained a license for KENIFINE technology in 2002 from KOBE STEEL Ltd.

Hotbed of the **same bacteria** as the toilet in the cover!

Familiar goods also safe and clean with excellent antibacterial performance

- Printing is done with special ink containing excellent antibacterial performance KENIFINE™ powder.
- Growth of bacteria attached to the seal surface is inhibited to keep the inside of the case in a clean state.

Just paste the seal!

Relieved because test is based on real product data

Test Center examined JIS Z 2801		Number of viable bacteria immediately after inoculation/cm ²		Number of viable bacteria immediately after 24 hours/cm ²		24 Hours later
		Logarithmic value	Number	Logarithmic value	Number
